ASSISTIVE DEVICES:

If a person with a disability requires assistive devices to access the services provided by DRFMC, they will be allowed to use such devices.

It is the responsibility of the Clinic to ensure that staff are trained on what devices are used for, where these devices are kept and how to properly use the assistive devices.

The Clinic is also responsible for maintenance of any assistive devices that are corporate/association property.

It is the Clinic's role to clearly communicate the availability of equipment and assistive devices to the public. DRFMC does not charge a fee for the use of equipment.
